

Lids

Tadbik labels has been a leader in lids manufacturing for decades. we produce beautiful aluminum and PET lids in high quality and performance.

All our lids forms tight, reliable seals and delivers high barrier protection to safeguard your product. From there, you can choose the material that suits your container, brand and budget best.

Our lids can be supplied as pre-cut lids or in reels.

Meanwhile, the pin-sharp, 8-color graphics on rich, white substrate on our PET lids convey added quality and eye appeal to consumers. To your operations team, PET also adds the security of added puncture resistance and the convenience of compatibility with all metal detection technologies for improved food safety.

PET Qualities:

- Easy peel
- Better looking graphics
- Can be used in microwave ovens
