

**Innovation and Leadership in Flexible Packaging,
Labels and Packaging Solutions**

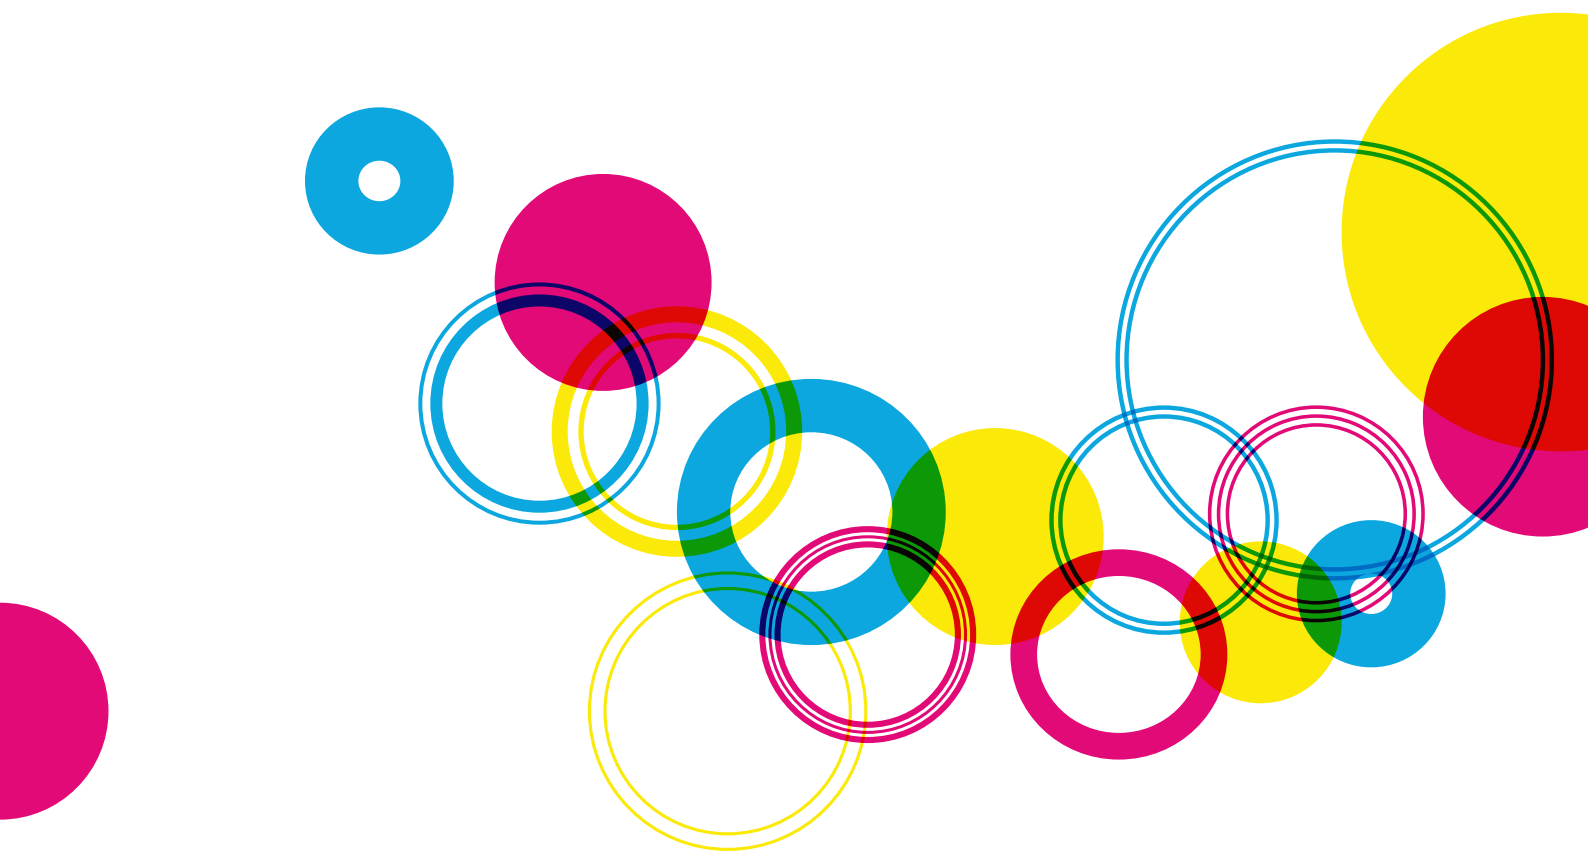

Tadbik is a world leader of advanced Flexible Packaging, Labels and Specialty Solutions. For over thirty years we've worked closely with global clients to pioneer the industry's innovations.

With state-of-the-art production facilities and highly skilled in-house design and engineering teams, we thrive on transforming great new concepts into highly attractive products. Always pushing ourselves and our technologies to the next level, we constantly develop new applications to help clients brand and sell their products in an increasingly competitive marketplace.

Operating on four continents, with a reputation for on-time, in-budget delivery of consistently superior products backed by personalized customer service, Tadbik is the partner of choice for global brands in the Food & Beverage, Cosmetics, Pharmaceutical, Retail and many other industries.

Tadbik maintains the highest international standards of food safety, occupational health and safety, and environmental responsibility.

Here to serve you, we're ready to take on the next challenge of the ongoing packaging evolution.

Flexible Packaging

Offering greater manufacturing flexibility

An accomplished leader in flexible packaging with strong reputation for excellence in products and service, Tadbik CLP is the ultimate provider in this fast-growing category, offering solutions based on two decades of expertise and R&D innovation. The core advantage of Flexible Packaging in Tadbik is based on the commitment to quick time-to-market with short lead times, global reach, tailor-made packaging and superb quality.

Flexible Packaging solutions include:

Films and Lidding films - We deliver a complete range of rollstock and printed lidding films for cutting on customers' fill & seal packaging machines used a wide variety of dairy, retort, and other applications. Our high quality products are relied on by some of the world's leading brands.

Flexible Lidding - including aluminum foil, pre-cut aluminum and pre cut PET.

Our off-the-shelf and custom-made special products are found throughout the food & beverage, pharma and retail industries. Tadbik's lid products combine great looks and high functionality, providing tight, reliable seals and high barrier protection to safeguard products, and can be supplied in Die Cut and Rollstock formats according to customer requirements.

Stand-up Pouches - Tadbik's top quality pouches help customers enhance product presentation, shelf life and market presence. This product line includes popular or extraordinary shape pouches, pouches with zippers and pouch fitments. Selected for a wide variety of materials, uses, display and print possibilities, our zipper and stand-up pouches offer the full range of cost effective packaging possibilities.

Retort - As the world is becoming more environmentally-conscious, manufacturers are opting for consumer-friendly packaging solutions that weight less and consume less energy. In addition, consumers look for on-the-go meals that are ready to eat, easy to heat and consume. Retort flexible packaging meets both market-trends perfectly.

Labels

A labor of passion for beauty, excellence and technology

Enhancing brand recognition and customer sales, standout labels are more important than ever in today's competitive markets. As innovative producers of cost-effective high-impact labels, we provide the production expertise and the machinery to meet the needs of our global clients.

Creating highly effective Pressure Sensitive / Self Adhesive Labels, Shrink Sleeve and In Mold Labels we overcome the multiple manufacturing challenges. Backed by 30 year's experience, technological expertise and operational excellence, Tadbik works with the world's major global manufacturers of Food & Beverage, Personal Care & Cosmetics, Pharmaceutical, Retail, Industrial and more.

Self Adhesive Labels (Pressure-Sensitive Labels)

- With decades of proven manufacturing experience and expertise with evolving cutting edge technologies, we provide a full spectrum of versatile solutions from short runs for product launches, variable data printing for promotional campaigns, to unlimited high volume production for established items.

A 1-stop shop for the full range of high quality products, we have built a global reputation for R&D excellence, cooperating with clients to their full satisfaction - delivering quality products in shortest lead times.

IML (In-Mold Labels) - Long-lasting In Mold Labels provide an extremely low-cost solution for a wide range of Food, Home and Personal Care, Household and Industrial uses.

In Mold Labels offer the options of quality offset and gravure printing making them highly attractive productions, with finishes ranging from classic transparent to elegant metallic. We also offer a variety of biodegradable solutions that leave a minimal carbon footprint.

Shrink Sleeve Labels - With almost 20 years' experience, Tadbik is a leading global supplier of Shrink Sleeves. Able to answer particular needs with complete turnkey solutions, we provide full end-to-end service from initial concept through final label production. In addition we provide a designated technical team who respond on-site within 48 hours of a call.

Incorporating Offset and Gravure printing in one machine we provide initial cost savings, while our in-house pre-press department enables quick production, helping to shorten clients' time to market.

Shrink Sleeves and Labeling Applicators -

With your comprehensive automation and productivity considerations in mind, Tadbik Automation manufactures a line of cutting-edge automated Pressure-Sensitive (Self-Adhesive) Labeling Machinery, Shrink Sleeves Applicators and Shrink Tunnels.

Designed to meet your production requirements - cost-efficiency, flexibility and reliability are guaranteed.

Our Labeling machines and Shrink Sleeves Applicators have been selected by leading manufacturers worldwide across multiple industries including Food and Beverages, Cosmetics, Toiletries, Pharmaceuticals, Chemicals and Detergents.

RFID & IN-PACK PROMOTION

Tadbik offers varied specialized solutions that bring together cutting-edge innovation, decades of proven expertise, as well as attentiveness to the various global trends that shape the industry.

RFID and NFC Solutions

Take your operation to the next level with RFID and NFC

Today many industries are realizing the real added value that RFID has to offer. With major developments in recent years that enable more reliable, cost-effective solutions, RFID technology is strategically positioned to tap into many new segments. From inventory management of pallets and boxes to streamline operation, with apparel tagging and smart tickets and cards, and from counterfeits prevention applications, to using it as a marketing vehicle in telecommunication – RFID products are now all around and are here to stay.

As a leading printing and packaging company, Tadbik takes advantage of years of experience and printing techniques, combined with highly skilled personnel. Utilizing our strong R&D background and onsite laboratories and test equipments Tadbik offers various RFID and NFC solutions to our customers, leveraging the synergy with the company's other business units. With a constantly growing product portfolio, we cater to the diverse needs of many industries.

- RFID Track & Trace Logistic Labels
- RFID Security and Tamper-Evident Labels
- RFID & NFC Wristbands

Packing Experiences

In-Pack Promos

Make impact and enhance brand awareness

Tadbik Packing Experiences is a Tadbik strategic business unit that produces and markets collection stickers, branded leisure products for children and youth as well as promotional products inserted in packaging.

Taking advantage of the proven capabilities of Tadbik, we offer our clients a comprehensive solution. Utilizing cutting-edge technologies for high-quality printing of stickers, collection stickers and promotional items, along with unique and innovative techniques of collecting and wrapping the finished product, we provide additional solutions in the manufacturers' production lines - inserting promotion products into the final packaging. Insertion options include collection stickers, 2D and 3D items.
